JUPITER  
INTERNATIONAL  
LIMITED

# OVERVIEW

Jupiter is a pure-play company in the solar industry with focus on providing integrated solar power solutions with a commitment to quality and efficiency. We entered the space in 2008 and our advanced facilities in Baddi, Himachal Pradesh, India produces high-efficiency solar photovoltaic cells. The facilities operate at an 800 MW capacity and are being ramped up to 1 GW Mono PERC solar cell units. Since entering the EPC sector in 2018, we have successfully completed 42 MW of projects across India.

Our facilities and Integrated Management Systems are certified with ISO-standards by TUV Rheinland while our solar cells are at par with international standards and are certified by International Testing Agency, ISE Fraunhofer Germany. Our EPC solutions are high quality customisable solar solutions where we cover the ambit of all solar solutions and recognise the importance of outstanding service.

Jupiter's track record has been marked by exceptional quality and robust stakeholder relationships. Our future-ready vision and comprehensive solutions have enabled us to build a collaborative, employee-centric organisation focusing on sustainability and resilience. With integrated solar cell and solar module manufacturing facilities in Bhubaneswar, Odisha in advanced stages on commissioning, we are on track to reach a capacity of 4 GW of solar cells and 2.8 GW of solar modules by the end of 2025.

## VISION

We leverage our collaborative instinct and growth mindset to engage in a technology-first approach to create sustainable energy products and services.

## MISSION

To play a crucial role in powering a net zero planet.

# PRODUCTS & SERVICES

Solar Cells

---

Solar Modules

---

Solar Roof Top Solutions

---

Off Grid & On Grid Solar Solutions

---

Solar Water Pumps

---

Consulting, Designing & Engineering of Solar Plant

---

Liasoning & Approvals

---

Operations & Maintenance

---

Battery Energy Storage System

---

# WORK PROCESS

-  Site Survey
-  Design & Engineering
-  Procurement & Installation
-  Inspection
-  Commissioning
-  Operation & Maintenance

# WHY GO SOLAR?

Cost saving of ₹4 - ₹5 per unit of electricity

Reduces Carbon Footprint

Provides hedge against increasing energy bill

Effective mode for power in remote areas

Payback period of less than 5 years

Reliable & economical alternative power source

Renewable source of energy

Saves fuel by decreased use of DGs

Intangible benefits like Green Building Ratings, LEED Certifications etc.

Low maintenance cost

# WHY US?

Strong Experienced Team with EPC Knowledge

Integrated Solar Cell Manufacturing, helps in Quality Control as Solar Cell is Prime Material for any Solar Power Plant

Strategic Tie Ups for Modules under OEM Program

Customer Centric Approach

Young and Enthusiastic Leadership

Robust Technical Capabilities

Quality Conscious Design

# 361 DEGREE SERVICES

The one degree that makes all  
the difference

# SOLAR TODAY, TOMORROW AND FOREVER

We recognise the importance of providing outstanding service to our customers and believe that customer service should be the prime endeavour. We deliver professional, helpful, high quality service and assistance before, during and after customer's requirements are met. We pursue a 361 degree approach and believe that the extra 1 degree of service beyond the cliché 360 degrees earns us customer satisfaction. Our accessible, knowledgeable and courteous team members give a patient hearing to your concerns and are happy to walk that extra mile to resolve issues and leave you happy and satisfied.

We envision to become a strong solar EPC player that stands out from its contemporaries due to its professionalism and customer centric approach. Our goal is to improve lives of the people by providing reliable and sustainable energy solutions. We aspire to generate utmost value for our customers by executing projects in the most cost effective manner and are very much aligned with Government of India's vision for solar power by 2030.

# PROJECTS EXECUTED

( A GLIMPSE )

West Bengal Renewable Energy Development Agency

Location	Industry	Project Type	Capacity KWP
Across West Bengal	School	Rooftop - RCC in 400 Schools of 10 kWp each	4,000

West Bengal Renewable Energy Development Agency - Bhajanghat

Location	Industry	Project Type	Capacity KWP
Nadia, West Bengal	State Nodal Agency	Ground Mounted	10,000

West Bengal State Electricity Dist Co Ltd - Dhaka 1

Location	Industry	Project Type	Capacity KWP
Birbhum, West Bengal	Power Distribution	Ground Mounted	10,000

West Bengal State Electricity Dist Co Ltd

Location	Industry	Project Type	Capacity KWP
Murshidabad, West Bengal	Power Distribution	Ground Mounted	10,000

Anmol Stainless Pvt Ltd

Location	Industry	Project Type	Capacity KWP
NH-2, West Bengal	Stainless Steel Rolling Mill	Rooftop - Tin Shed in Factory building	500

A-One Polypipes and Fittings Pvt Ltd

Location	Industry	Project Type	Capacity KWP
Chinsurah, West Bengal	Manufacturing	Rooftop - Tin Shed in Factory building	532

Deon Tapes Industries Pvt Ltd

Location	Industry	Project Type	Capacity KWP
Silvassa, Dadar & Nagar Haveli	Manufacturing	Rooftop - Tin Shed in Factory building	1,093

Fresenius Kabi Oncology Ltd.

Location	Industry	Project Type	Capacity KWP
Baddi, Himachal Pradesh	Pharmaceutical	Rooftop - RCC in Factory Building	300

Himachal Pradesh University

Location	Industry	Project Type	Capacity KWP
Shimla, Himachal Pradesh	Education	Rooftop - Tin Shed in Factory building	500

Rajasthan Electronics & Instruments Ltd

Location	Industry	Project Type	Capacity KWP
Varanasi, Uttar Pradesh	Railway	Rooftop - RCC & Tin Shed in Varanasi Railway Station	1,000

Purbasha Group

Location	Industry	Project Type	Capacity KWP
Across West Bengal	Manufacturing	Rooftop - Tin Shed + RCC Factory Building	715

**TOTAL CAPACITY EXECUTED : 42 MW**
