

Jupiter International secures ₹3 Crore rooftop solar project in West Bengal

21 January 2025, Kolkata: Jupiter International Limited, a leading manufacturer of photovoltaic solar cells and provider of solar power solutions, has secured an order worth over ₹3 crore from the West Bengal Khadi & Village Industries Board (WBKVIB). The project involves the supply, installation, and maintenance of rooftop grid-connected Solar PV power plants across 23 locations in West Bengal.

With a cumulative capacity of approximately 0.5 MW, the project is set to be completed within 365 days from the commencement date. This initiative is expected to significantly enhance energy efficiency, reduce operational costs, and contribute to the state's efforts to lower carbon emissions.

This project reinforces Jupiter International's commitment to providing sustainable energy solutions and advancing India's renewable energy goals. By focusing on rooftop solar installations, the company continues to drive the transition to cleaner energy and strengthen its position as a leader in the solar sector.

About Jupiter International:

Jupiter International is a leading manufacturer of photovoltaic solar cells and a provider of comprehensive solar power solutions. Established in 2008, the company has become a key player in the solar industry, recognized for its advanced technology, local manufacturing expertise, and commitment to quality. With an existing 1-GW manufacturing facility in Himachal Pradesh, the company aims to redefine solar manufacturing leadership by driving innovation and growth, while upholding quality and sustainability. Over the next three years, Jupiter International aims to establish itself as a fully integrated leader in solar manufacturing, with its ambitious plans to achieve 3 GW of wafer production, 9.4 GW of solar cell capacity, and 6 GW of module assembly.
